

ABC's Training Tuesdays — Part Seven

How to Combat Webspinning Mites

April 6, 2021 | 8:00-9:30 a.m.

Participants will learn how to determine if a treatment application is needed to combat webspinning mites, gaining insight on the value of examining and monitoring mites and their natural enemies. In addition, speaker David Haviland will discuss economic thresholds for webspinning spider mites through the lens of new action and treatment models that help prevent financial losses. Treatment options and specific examples will also be discussed.
