"GOODWIN IS GOOD EQUIPMENT . . . IT HAS MY FULL APPROVAL."

"I can say from experience, there's just no comparison with the Goodwin Redhead Knocker. It is a remarkable machine! Built rugged, quick and easy to handle and there is no maintenance to speak of. I have only had a belt replacement with my Goodwin."

"As for my Goodwin Pick-Up Machine — it's tops too. Costwise (initially or even in the long run) it is proving to be quite economical. It won't bury nuts as other machines sometimes do. If ground preparation is done properly, and you have a good operator, there are hardly any nuts left on the ground.

"Goodwin is good equipment — it has my full approval!"

Says...

DICK BOERSMAN
Ripon Almond Orchardist

Talking enthusiastically over the many merits of the GOODWIN REDHEAD KNOCKER are Dick Boersman, left and NANCE FORD TRACTOR representative, Bill Looper.
